

We've Got Some Cool Savings For You

Early Central AC & Ducted Heat Pump Replacement
REBATES UP TO \$1,150

JULY 1, 2014 – NOVEMBER 30, 2014

Replace your old ducted central air conditioning or air source heat pump unit and receive generous rebates.

By using a COOL SMART participating contractor you'll be assured of a quality installation with proper testing of equipment, and you'll earn an extra \$150 rebate.

How cool is that!

EARLY AC & HEAT PUMP REPLACEMENT REBATE

	New Equipment Requirements			Customer Rebates \$\$'s		
	SEER ¹	EER ²	HSPF ³	Early AC/HP Replacement Rebate	QIV Test Rebate ⁴	Total
Early AC/ASHP	≥ 14.5	≥ 12	≥ 8.2	\$650	\$150	\$800
Early AC/ASHP	≥ 15	≥ 12.5	≥ 8.5	\$800	\$150	\$950
Early AC/ASHP	≥ 16	≥ 13	≥ 8.5	\$1,000	\$150	\$1,150

¹ SEER— Seasonal Energy Efficiency Ratio.

² EER—Energy Efficiency Ratio is a measure of instantaneous cooling efficiency.

³ HSPF—Heating Seasonal Performance Factor. HSPF rating is only applicable for Heat Pump Equipment.

⁴ Quality Installation Verification (QIV) testing ensures that your AC system is properly charged and has sufficient airflow. Only customers using a COOL SMART Participating Contractor qualify for additional \$150 QIV Rebate.
